

# Venue Finding

## Case Study

meeting room

### The Client

Napp Pharmaceuticals

### The Brief

To arrange group travel for 200 delegates to a conference in Mauritius

To search for a suitable venue for a Christmas teambuilding event for 230 people in London and to arrange transport and accommodation.

The venue had to be 'quirky' or 'unusual' and with their Christmas Party already booked for the same evening at the Natural History Museum the client specified that the venue for the teambuilding event had to be in close proximity.

### The Solution

Several options were sourced, including the Science Museum and Kensington Roof Gardens. A site visit to the Science Museum was arranged, following which the venue was confirmed and booked on behalf of the client.

Following the client's decision to confirm the Science Museum option, Gray Dawes' Event Management team also helped source teambuilding activities and catering options.

Accommodation was booked in the Kensington area, within walking distance of both venues. Special group rates were negotiated to ensure that the total cost fell within the limited budget.
